Heritage Celebration

This month Illinois State University will celebrate its 142nd anniversary as Illinois' first public university. The campus community and university friends are invited to participate in a weeklong Heritage Celebration in observance of the University's founding and legacy - and its "future heritage."

We would especially like for you to attend a presentation by local artist Dann Nardi, and the "Dean of Green," Don Schmidt. Dann Nardi has designed a landscape sculpture which will convert an abandoned section of School Street into an educational and sculptural walkway. Don Schmidt will discuss how this sculptural environment will enhance the University's horticultural collection as part of the Fell Arboretum.
